Effective Date: 11/1/2021

The National Ovarian Cancer Coalition (“**NOCC**,” “**we**,” “**us**” or “**our**”) is committed to protecting your personal information. This Privacy Policy (“**Privacy Policy**” or “**policy**”) discloses the privacy practices for the National Ovarian Cancer Coalition and applies solely to information collected by NOCC through its patient and caregiver support programs, and/or financial support programs (collectively “**NOCC programs**”), except where stated otherwise. While NOCC is not a HIPAA Covered Entity or Business Associate, we are committed to ensuring patient privacy in accordance with applicable laws and industry best practices. By using the NOCC programs, you acknowledge you have read and understood the terms and conditions of this policy. If you do not agree to the terms and conditions of this policy, please do not use the NOCC programs. Information Collection

The NOCC provides assistance through the NOCC support programs and collects from patients certain individually identifiable information (“**personal information**”), including:

- Contact information;
- Demographic information;
- Protected health information, such as health insurance and other benefit information, financial status, medical information, and employment information;
- Upon completion of service delivery to a patient through a NOCC program the patient may be invited to Share Your Story. This is a voluntary opportunity offered to each patient and has no bearing on delivery of services to a patient through NOCC programs. Personal information is collected through Satisfaction Evaluation with an option to Share Your Story specifically to be publicly shared and demonstrate program impact for patients and their families. Only stories, and personal information, of patients who have provided authorization to NOCC are shared publicly.
- Periodically, NOCC conducts follow-up with patients served by NOCC programs to ask them questions about the services they received both from NOCC and from their medical and insurance providers. These responses help NOCC understand what matters to the patients we assist and to evaluate how our services have impacted patients receiving the services, enabling us to serve as an effective voice for change in the healthcare system. Voluntary survey and program evaluation participation has no bearing on delivery of services to a patient through NOCC programs. Survey responses are aggregated for the purposes of public reporting and no personal information is shared publicly.
